TITAN game strategies *with Susan DeWijk*

October 28th, 2009
4:30 pm to 5:30 pm
Please log on at 4:00 pm to do your mic & speaker test!
\$20

ABOUT THE SESSION:

For those of you who joined us in Part 1, you have had time to explore the simulation and will want to learn new strategies. We will set up a competition between all participants and discuss basic strategies and not so basic strategies that have been working for you. Practicing the game with computer generated companies can be much different than playing on-line with active teams. Join us "live in Elluminate" in our first ever Titan Teachers Challenge, practice strategies you have developed, learn new strategies from others. Win or lose or somewhere in between, it will be a winning experience for all in learning different strategies to pass on to your students. Joe Petermann, Coordinator of High School Programs with Junior Achievement of Southern Alberta will be joining us again in this webinar to continue sharing his knowledge and expertise with us.

ABOUT THE FACILITATOR:

Susan deWijk, BEd, MEd is a retired CTS teacher with over 30 years experience in what is now the CTS BIT Cluster. She specializes in Financial Management, Management and Marketing, Enterprise and Innovations and Information Processing. In the mid nineties she was seconded by Alberta Education and was part of the original CTS Team developing curriculum & assessment and reviewing resources. Most recently she was contracted by the Calgary Board of Education to work with teachers in the development of performance assessment tasks for the BIT and TMT clusters using backwards design. She has used the Titans simulation in her BIT classrooms for over 10 years.
