Connecting Careers to Your BIT Courses *with Karen Kiefer*

October 7th, 2009
4:30 pm to 5:30 pm
Please log on at 4:00 pm to do your mic & speaker test!
\$20

ABOUT THE SESSION:

Connecting Careers will look at the new approach in our CTS Program of Studies where every single course includes a careers general outcome, specific outcomes and sub-specific outcomes that MUST be covered.

Specifically I will investigate a set of courses in BIT or TMT from an introductory, intermediate and advanced course. I will also address assessment in the courses and how teachers can incorporate the careers section through a reflective piece in each course.

ABOUT THE FACILITATOR:

Karen graduated with a B.Ed. degree in Secondary Education from the University of Calgary. She completed a double major in Pure Math and Languages and worked in and around the Oil & Gas industry of Calgary for 15 years. During this time she completed a Management Certification in Personnel Management and Human Resources from the University of Calgary and her 4th Level C.M.A. She also completed a Master's in Distance Education from Athabasca University.

Moving into Education eleven years ago, Karen has taught computer graphic design, multimedia and other business courses in CTS. As the Curriculum Leader for CTS at Forest Lawn High School she assisted staff throughout the area of CTS with the program of studies and budgeting.
